Upgrade to Weathershield

Weathershield is a polyester fabric with a urethane coating making it both attractive and weather resistant. It minimizes shrinkage, features a high UV protection, and has excellent tear resistance. It's easy to maintain and can be cleaned with soap and water, eliminating the need to apply a conditioner every few months as required on vinyl.

Best of All,

3x Stronger - Extending the Life of Your Cover
25% Lighter - Makes Opening & Closing Easier

WS-UPGRADE Our Price:

SpaEase Cover Lifters

SpaEase™ 100

The industry's #1 selling Cover Lifter just got **better**. New reinforced plastic brackets extend the lifter's life. A padded handle and a full-length center bar makes operation easier. Double coated aluminum tubing and stainless-steel hardware dramatically minimizes potential rusting.

FEATURES & SPECS:

- Requires 10 to 15" of rear clearance
- Requires 5" of clearance from each side
- Fits most hot tubs up to 96"
- Five Year Limited Warranty

Bracket: Reinforced Plastic

Model: SEL100

Our Price:

SpaEase™ 150

A "Bottom Plate" secures the lifter by the weight of the spa eliminating the need to install any screws into your cabinet. The cover slides effortlessly behind the cabinet improving your view and the angular lifter design protects the cover from touching the ground. Aluminum tubing and stainless-steel hardware dramatically minimizes rusting.

FEATURES & SPECS:

- Requires as little as 18" of clearance at rear
- Requires 4" of clearance from each side
- Fits most hot tubs up to 96"
- Five Year Limited Warranty

Model: SEL150

Our Price:

Only Lifter that converts into VacuSeal

Extended Center Bar
For Spas 97" to 109"
Long

SpaEase™ 200 STEEL/ALUMINUM CONSTRUCTION

Uses Aluminum Where Possible & Steel When Required

LIFTING HANDLE CONVERTS TO ROBE/TOWEL HOLDER

Textured Handle makes operating lifter easier and when opened is perfectly positioned to hang even the longest robe.

BUILT TO LAST

Combination of Phosphate & Electrolysis Powder Coating along with all Stainless-Steel Hardware. Unique design helps prevent unintentional closings without the use of burdensome locking devices.

ADJUSTABLE BRACKET

Multiple attachment points make it universal for installation on small to large spas. It also adjusts the ease of opening and closing of lifter.

Model: SEL200

Optional Extended Bracket
Required on spas with a Radius Over 12" and up to 16"

VacuSeal For Hot Tubs

Cover & Lift System

Easiest to Use

ONLY Cover Requiring Just One Simple Motion to Open or Close

ONLY Lifter that Assists in Both Lifting and Lowering Your Cover

Converts Into a Canopy

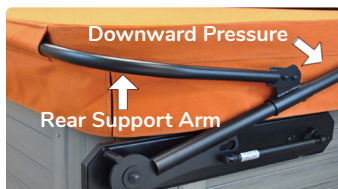

Protection from the Sun, an Escape from the Rain, and a Little More Privacy.

Saves You Money

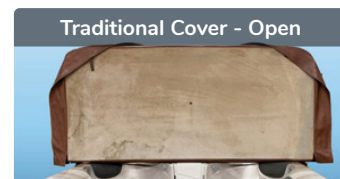

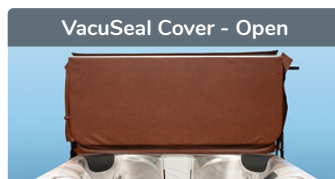

Our Patented Bottom Hinge Seals the Cover to Your Spa to Prevent Heat Loss. Other Covers Need a Center Gasket which is where Heat is Lost, Costing You \$\$\$.

The VacuSeal Applies a Gentle Downward Pressure When Closed, Enhancing the Seal. Our "Rear Support Bar" always returns Cover to it's original position so you never have to shift Cover after it's been closed.

Enhanced View During Usage

Only Cover where you face the attractive exterior side.

Within months chemical fumes discolor the underside.

LIFT HANDLE/ROBE HOLDER

ADJUSTABLE SWING ARM

ONLY Lifter that Allows Adjustment for Your Spa Size.

Upgrade to WeatherProof

WeatherProof is a polyester fabric with a urethane coating making it both attractive and weather resistant. It minimizes shrinkage, features a high UV protection, and has excellent tear resistance. It's easy to maintain and can be cleaned with soap and water, eliminating the need to apply a conditioner every few months as required on vinyl.

SPECIFICATIONS:

- Fits Spas up to 96", up to 109" w/Ext. Ctr. Bar
- Fits Spas up to 12" Radius, up to 16" Radius w/Ext. Bracket
- Requires 2" Side Clearance, 7" on Side w/Handle
- Requires 7" - 9" Rear Clearance

WARRANTY

5 Years | VacuSeal Lifter
3 Years | VacuSeal Cover

CONVERTALIFT

VacuSeal Easily Converts into a Remote Controlled Cover Lifter System. See P.20
